

PROJECT PROFILE:

Johnson Controls Executive Global HQ Renovation

2008-2009

LOCATION:

5757 N. Green Bay Road, Glendale, WI

GENERAL CONTRACTOR:

Hunzinger Construction

SIZE OF PLUMBING CONTRACT:

\$1,521,541

At the completion of this renovation and certification, this 33 acre site campus will become one of the highest concentrations of LEED Platinum buildings in the world. (1 of 4 **LEED Platinum Certified Buildings** in the nation.) The project includes high-efficiency fixtures, surfaces being filtered and reused for flushing toilets, reducing potable water consumption by 595,000 gallons annually.

Geothermal heating/cooling uses circulating water from 272 wells to reduce winter heating costs by 29% and summer chiller operating costs by 23%.

Recognized by WI DNR as a Green Tier Organization
