

PROJECT PROFILE: **Lisbon Avenue Health Center**

2015

LOCATION:

Milwaukee, Wisconsin

GENERAL CONTRACTOR:

Hunzinger Construction, Inc.

SIZE OF PLUMBING CONTRACT:

\$ 428,213.00

42,000 square foot, 3-story healthcare facility to replace an 8,500 square foot facility on the adjacent lot. Site Utilities were completed during record breaking cold spells in January/ February in which frost depth was at least 8 feet. In addition, the tight urban site posed challenges with very limited space to maneuver or to store materials. The construction schedule of roughly 14 months was met.

This new clinic enables Progressive to serve an additional 11,000 patients annually and is a federally qualified health center providing services to primarily underserved, low-income populations in Milwaukee's central city.
